in any way advocate any change in the law in regard to criminal juries. In his paper he stated that his subject was the trial of civil cases by juries.

Bio Stoke Gar, Va., August S.—After having paid out about \$10,000 in the last month to meet a steady drain on its resources, the Bank of Big Stone Gap was compelled to close its doors this morning, and W. M. McElwee, Jr., the former tellor, was made assigned. No blame is attached to any of the officers of the bank, and it has been due to the hard work of Howard Bullitt, the cashier, and his strong personal connections that the bank has so long been able to weather the storms of the past three years.

Mr. McElwee says that in Foorusir, 1890, the bank had \$200,000 deposits and loans of \$225,000. This was the high tide. In May or June one depositor, the limprovement company, paid out \$50,000 on the furness, and by Decomber, 1891, flushees began to tigaten up over the country, and affected the bank very seriously—so much so that the deposits continued (siling off, till now there are only about \$15,000; but the loans have also been reduced.

The descenters will undountedly be paid in full, and as the expital stock is only \$45,000 the stockholders may get par, but much depends upon the value of collateral and an 'unprovement in basiness. The business of the town will be done by the other bank, the Appalachian, when, in epite or influers here, at Abingdon, and Bristol, enjoys the confidence of the community, and is constantly receiving new deposits.
